Overview

The City of Wabasha is planning a project for 2019 that will include pavement improvements along the following streets:

- 10th Street West from Church Avenue to Hiawatha Drive West
- Arch Avenue from Hiawatha Drive to 7th Street West
- Alleghany Avenue from 8th Street West to Hiawatha Drive West
- 8th Street West from Alleghany Avenue to Pembroke Avenue
- Franklin Avenue from Main Street to 2nd Street East
- Jefferson Avenue from 2nd Street East to 3rd Street East and from Market Street East to 10th Street East
- 12th Street East from Franklin Avenue to Broadway Avenue
- Market Street East from Milligan Avenue to Pierce Avenue
- Milligan Avenue from Market Street East to 9th Street East
- 9th Street East from Broadway Avenue to Hiawatha Drive South
- Pierce Avenue from 8th Street East to 12th Street East
- Augustin Avenue from Rustic Lane to Rustic Lane
- Rustic Lane from Augustin Avenue to Angelique Street
- River Drive South from Angelique Avenue to City limits

The project will be very similar to the mill and overlay projects completed in 2014 and 2016 on the west side of town. The proposed improvements generally involve grinding up the existing asphalt and then placing a new layer of asphalt. The project will also involve replacement of existing asphalt curb, and localized spot repair of concrete curb.

Project Timeline

Rochester Sand and Gravel plan to begin milling the existing street pavement starting the week of July 15th, along the streets highlighted in orange on the attached map. After milling is completed, they will begin paving the new street surface and bituminous curb.

Please be aware that during milling and paving operations, street traffic may be limited to one-way traffic. Driveways may be inaccessible for a short period when milling or paving operations are taking place directly in front of driveways.
